

Make it Simple... but Make it With Style!

Just a little bit about us...

Please allow me to introduce myself.

My name is Penni Domikis and I am the owner and chief designer of

Cabin in the Woods Quilters.

Cabin In The Woods Quilters is a quilt pattern design company established in 2003 and located in Fredericksburg, Virginia. I was introduced to quilting by a family friend and combined my love for this hobby as well as photography and graphic design into a thriving pattern design business. I am an award-winning quilter and have developed a reputation for breaking down quilting designs into manageable pieces for quilters of all skill levels, leading to my company motto,

"Make it simple... but make it with style!"

My company has been in business for more than 11 years and has published over 25 individual patterns for sale including traditional piecing, appliqué, contemporary and modern designs and 4 pattern books. We manufacture our own line of laser cut acrylic templates and provide custom template services upon request. CWQ designs projects around fabric lines for social media marketing and sales marketing and is currently working with several major fabric manufacturers.

All Scrapped Out! Series

www.cabininthewoodsquilters.com

Scrap Quilting Books... perfect for your class or workshop.

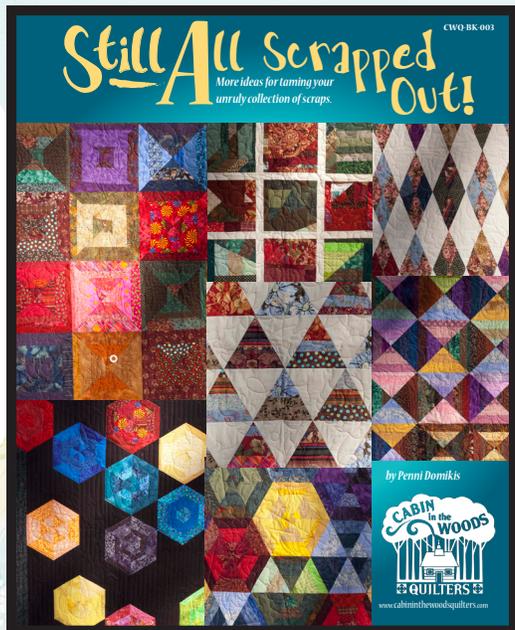

We began a program of improvisational scrap quilting in 2009 called All Scrapped Out! to show quilters how to use all their leftovers from their many quilting projects to create beautiful quilts without pre-cutting or pre-pressing their scraps.

This class led to the publication of *All Scrapped Out!: A guide to making a masterpiece from your unruly collection of scraps* (©2011).

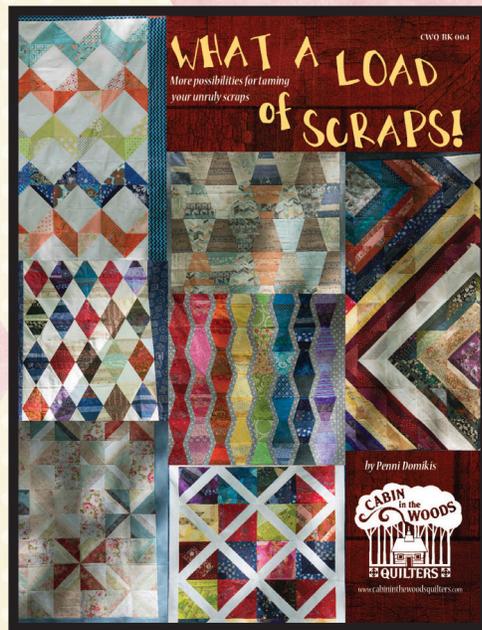

All of our books encourage the use of scraps but are FQ, Jelly Roll and Pre-Cut Friendly.

What A Load of Scraps (© 2014) is our third publication in this series.

The success of this book led to the publication of *Still All Scrapped Out!* (©2012) (a follow up to the first scrap quilting book).

Customized Templates for your business needs...

Cabin in the Woods Quilters also offers a custom template service for your pattern company or quilt shop.

- Small production runs
- Low setup costs
- Rapid prototyping

Reasons for a custom template:

- New Designers looking to prototype their design for mass production and proof of concept.
- Small pattern companies that would like to enter the template market.
- Long-armers in need of a custom shape.
- Quilt Shops looking for a unique giveaway or promotional item for their next event
- Quilt Guild Fundraising
- Perfect for workshops, retreats and shop hops.

All templates are manufactured in the United States in our facility with our CNC Laser machine where we can offer a quality product on demand at a reasonable price. Quotes are simple and straight forward and are provided upon request based on a concrete idea. Interested parties should have print-ready artwork.
