Cabin in the Woods Quilters

Cabin in the Woods Quilters is a quilt pattern design company established in 2003 and located in Fredericksburg, Virginia. Our owner and chief designer, Penni Domikis, was introduced to quilting by a family friend and combined her love for this hobby as well as photography and graphic design into a thriving pattern design and template business. She is an award-winning quilter and has developed a reputation for breaking down quilting designs into manageable pieces for quilters of all skill levels, leading to our company motto:

“MAKE IT SIMPLE...BUT MAKE IT WITH STYLE!”

Penni enjoys traveling around the country to quilt shops and guilds teaching her method of scrap quilting, machine appliqué and English Paper Piecing while sharing tips and tricks she has learned along her quilting journey. Penni is always developing new products for quilters and shop owners alike that solve many common problems. She specializes in showcasing fabric lines or “forgotten fabrics” in stores to create masterpieces using a little color theory. Penni works with several fabric companies to create designs using their fabrics and product companies to highlight new and innovative ways to use the products for all your quilting needs. She also loves creating her own templates in Cabin in the Woods Quilters' on demand manufacturing facility. Penni loves building relationships with quilters and quilt shops to keep the quilting industry thriving.

New Products...

ENGLISH PAPER PIECING: Our newest template collection answers the call of the resurgence of the traditional hand piecing quilters in today's market. Hand piecing has seen a tremendous rise in popularity since designers like Katja Marek, Willyne Hammerstein, Jen Kingwell, and others have authored books on English Paper Piecing. If you Google the term "millefiori quilts" you will find a host of colorful inspiration that illustrates this point. Hand piecing is portable and requires no expensive tools or machines, however it does often require cutting lots of little pieces. Quilters seek out template sets to make the job easier. The difficulty lies in finding the small template tools needed to create these masterpieces and chasing down the hot new designs.

OUR PRODUCTS: We set out to create templates that would be sturdy and perfect for all method of hand piecing. Each template comes in our standard 1/4" acrylic and contains two templates in one in a "halo fashion". The inner template is laser cut to the size of your finished piece. This removable piece is handy when creating your own papers for the those hard to find pieces and reduces the expense of creating a large quilt. These can also be used to create copy pages and cutting files for your electronic cutting machine. The outer halo has two functions. The outer portion of the halo is used to cut fabric pieces. The inner portion of the halo is used to mark the sewing line for those traditional hand piecers.

SETS and CODING SYSTEMS: CWQ offers custom sets that are quilt specific and are designed and created around a particular quilt and size. We offer quilt specific sets for all **Millefiori** designs by Willyne Hammerstein, **Patchwork of the Crosses** by Lucy Boston, **Panama Pyramids** by Linda Collins and **Glitter** by Jen Kingwell.

In addition to these sets, we have created our own sets for the quilter that likes to branch out and draft their own patterns or draft an antique pattern from a photo or antique top.

Our sets are available in **SMALL** and **LARGE** sizes by shape. **Small Sets** include 3/4", 1", 1 1/4" and 1 1/2" sizes and the **Large Sets** include 1 3/4", 2" 2 1/2" and 3" sizes. Our sets also contain a coding system by points and degrees. For instance, any blocks created around a hexagon would contain a 60° degree angle and would need 6 shapes in the center to make a complete block. All shapes that have the same angle contain a **6/60°** code on the package so that the customer can be assured they work together. In addition, every 1 1/2" template matches the length on every other 1 1/2" template. Our goal is to make sets that will be useful for a lifetime and can be used to draft designs from any designer.

SHOP GUIDES: We have also created Shop Guides for our most popular programs such as our All Scrapped Out! scrap quilting series and our pattern collection for use with our Nested Petal template. The shop guides are designed for shop owners and staff to be able to run these classes and programs on your own to get the most return on investment. As with any program, guides are for the exclusive use of the quilt shop and it is expected that the customers and students will purchase the actual patterns and books associated with the guide for the class.

6/60° Template Sets

Available in Large and Small Sets

Small Sets include: $\frac{3}{4}$ ", 1", $1\frac{1}{4}$ " and $1\frac{1}{2}$ " sizes
